

## HELNETAS MOZAMBIQUE PROGRAMME

HELNETAS in Mozambique collaborates with partners from government, private sector and civil society to improve the living conditions and resilience of women and men in Cabo Delgado, Nampula and Niassa Provinces. It implements development projects and initiatives responding the humanitarian needs of the local population. The Country Strategy for 2022-2026 provides and defines the direction and scope of programmatic and development priorities for the five year period.

## DEVELOPMENT GOAL

HELNETAS contributes to an effective and efficient improvement of the living conditions of economically and socially disadvantaged women and men, both in rural areas and small towns, protected from shocks and to the transition to a more inclusive and resilient society.

## OUTCOMES

Populations

Partnerships

Framework conditions

Vulnerable and economically and socially disadvantaged women and men in rural areas and small towns have improved their livelihoods in a sustainable and resilient manner.

Public and private parties provide efficient and effective services to their main stakeholders.

HELNETAS and its key partners provide evidence-based learning and innovation that contribute to framework conditions and policies conducive to inclusive and sustainable development.

## WORKING AREAS

### Water-Food-Climate

Women and men, particularly the disadvantaged in rural areas and small towns, have sustainable access and maintain resilient access to safe water, adequate sanitation and hygiene services and nutritious and healthy food.

### Skills-Job-Income

Women and men, especially young and disadvantaged people from rural areas and small towns, make use of better skills inside and outside the agricultural sector and market opportunities to access better self-employment and income to create jobs.

## CROSS-CUTTING TOPICS

### Gender equity and social inclusion

Women and men, specially disadvantaged, benefit directly from HELVETAS' interventions in terms of empowerment, active participation and decision-making.

### Learning and Innovation

The programme promotes innovation and actively documents and shares lessons learned.

### Humanitarian aid

The programme supports communities dealing with humanitarian crises and safeguarding development efforts.

## PROJECTS PORTFOLIO
